

HÜIS

How It Works

STEP 1

Let us get to know you! Complete our Style Questionnaire, which gives us details about your room, budget, likes and dislikes, and send us photographs of your space. Don't forget to send us links to your Pinterest or Houzz boards.

STEP 2

Our design team will create an initial concept based on your project details.* After you provide feedback, we will work with you to finalize your online interior design.

Your final design includes a complete room design, a customized furniture plan, and a digital shopping list (including selections for furniture, decorative lighting, pillows, art, and paint). Also included are suggestions for art placement or how to make a great bed, room dependent.

STEP 3

Order your new items in one easy checkout on our HUIS storefront, the fastest and easiest way to get all your beautiful new pieces hassle free. Our dedicated purchasing team will handle all the details for you, while you take advantage of either our free delivery or white-glove installation service.

* For each room we design, we will provide one option per item, based on the information you provide in your questionnaire, inspiration photos, and room measurements. One alternative for up to four items is included. Any additional changes can be made at CI\$125.00 per hour.
